INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Members of Council
Municipality of Kingston, Pennsylvania

Report on the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Municipality of Kingston, Pennsylvania, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Municipality of Kingston's basic financial statements as listed in the table of contents.

Unmodified Opinions

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of each major fund other than the General Fund, and the aggregate remaining fund information of the Municipality of Kingston, Pennsylvania, as of and for the year ended December 31, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Qualified Opinions

In our opinion, except for the effects of the matters described in the "Basis for Qualified Opinion on Governmental Activities and General Fund" paragraph, the accompanying financial statements present fairly, in all material respects, the financial position of the governmental activities and the General Fund of the Municipality of Kingston, Pennsylvania, as of December 31, 2022, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified Opinion on Governmental Activities and General Fund

Management has limited our audit procedures with respect to Act 511 taxes to confirmation of recorded revenue with tax collectors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Municipality of Kingston and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Municipality of Kingston's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Municipality of Kingston's ability to continue as a going concern for one year after the date that the financial statements are issued, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Municipality of Kingston's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Municipality of Kingston's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 - 7, budgetary comparison information on pages 76 - 77, and defined benefit pension trust fund and other post-employment benefits (OPEB) other than pensions information on pages 78 - 83 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. Although our opinions on the basic financial statements are not affected, the following material departures from the prescribed guidelines exist: management's discussion and analysis and required pension information does not include all of the items necessary for it to be presented in accordance with guidelines established by the Governmental Accounting Standards Board. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Municipality of Kingston, Pennsylvania's basic financial statements. The combining nonmajor governmental fund schedules and combining fiduciary financial schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor governmental funds schedules and combining fiduciary financial schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effects on the supplementary information of the qualified opinion on the basic financial statements as explained in the "Basis for Qualified Opinion" paragraph, the combining nonmajor governmental funds financial statements and combining fiduciary financial schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS FY 2022 (UNAUDITED)

Our discussion and analysis of Kingston's annual audit report provides an overview of the Municipality's financial activities for the fiscal year ended December 31, 2022.

Our analysis is derived from the Municipality's audited financial statements as prepared by the auditors.

The Municipal Administrator is available by appointment to review this analysis or to answer any questions concerning the annual audit report.

USING THIS ANNUAL REPORT

The annual audit report is presented in a format that is compliant with Governmental Accounting Standards Board (GASB) Statements 34, 68, 74, and 75.

GASB 34 provides a full disclosure of depreciable assets on the Statement of Net Position in the annual audit report. Depreciable Assets pursuant to GASB 34 are reported on the Statement of Net Position in the amount of \$17,271,958.00.

GASB 74 and 75 are actuarial disclosures of post-retirement benefits other than pension benefits. Liabilities pursuant to GASB 74 and 75 are reported on the 2022 Statement of Net Position in the amount of \$6,643,317.00. On the Statement of Net Position, the GASB 74 and 75 disclosures are referenced by OPEB Obligation. OPEB is defined as Other Post Employment Benefits other than pension benefits. OPEB includes postemployment healthcare benefits and all postemployment benefits provided separately from the pension plans. OPEB was reported in the amount of \$6,795,222.00 in the 2021 Annual Audit Report pursuant to a method of reporting in accordance with GASB 45. GASB 74 and 75 have replaced GASB 45. A separate copy of the GASB 74 and 75 Report, as prepared by the Actuary, is available for public inspection in the office of the Finance Director.

GASB 68 provides full actuarial disclosure of the Municipality's long-term, net pension liabilities. The Municipality's long-term, net pension liabilities are listed as a liability on the Statement of Net Position in the amount of \$9,067,518.00. For the year ending December 31, 2021, this number was reported in the amount of \$5,070,001.00.

For the fiscal year of 2022, the net dollar-weighted investment return across all three pension plans is 4.94%. The 2021 net dollar-weighted investment return for all three plans was 12.74%. For the fiscal years of 2020 and 2021, the net dollar-weighted investment return for all pension plans surpassed the Actuarial Assumption Rate of 7.75%. For the fiscal year of 2022, the net dollar-weighted return across all three pension plans resulted in an actuarial loss as they failed to reach the benchmark of 7.75%.

FINANCIAL STATEMENT HIGHLIGHTS

- The Statement of Net Position is prepared in accordance with GASB 34, 68, 74, and 75. The Statement of Activities is prepared in accordance with the modified accrual basis of accounting.
- Kingston's management utilizes the cash or budgetary method of accounting for all municipal financial transactions. The financial statements titled "Budgetary Comparison Schedule / General Fund" will most accurately reflect the financial records prepared and maintained by Kingston's management.
- On the cash or budgetary basis of accounting, which is reported on page 76 of the Annual Audit Report, there is an excess of revenues and other financing sources as compared to expenditures and other financing uses in the amount of \$408,778.00 for the year ending December 31, 2022. This figure most accurately reflects the financial statements prepared and maintained by the Municipality. Management practices of the Municipality are designed to deposit and book revenues in a timely manner and to make whole on expenses within payment terms.
- The ending fund balance expressed on page 76 of the annual audit report is \$1,701,221.00 for the year ending December 31, 2022, based on the budgetary basis of accounting. The ending fund balance based on the budgetary basis of accounting for the year ending December 31, 2021, was \$1,433,108.00.
- Management is committed to monitoring and indexing all aspects of the Municipal Budget by utilizing custom designed spreadsheets. The Municipal Administrator is available by appointment to review Management's custom spreadsheets and fiscal controls.
- Unlike revenue, management has the ability to control spending. Management will remain vigilant in making sure that all municipal spending is done in accordance with administrative policy and the Home Rule Charter. Wherever possible, Management will continue to keep discretionary spending at a minimum.

CONTACTING THE MUNICIPALITY'S FINANCIAL MANAGEMENT

- This report is designed to provide our citizens, taxpayers, and creditors with a general overview of the Municipality's finances and to demonstrate the Municipality's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Office at 500 Wyoming Avenue, Kingston, Pennsylvania at (570) 288-4576 extension 111.

TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2022

Total Net Change in Fund Balances - Governmental Funds \$ (421,940)

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Capital Outlays	1,056,212
Depreciation Expense	(1,342,063)

Because some real estate taxes will not be collected for several months after the Municipality's year ends, they are not considered as "available" revenues in the governmental funds but are deferred. The change in deferred revenue in the governmental funds between 2021 and 2022 is not considered as available or as a use of governmental funds.

1,763

Proceeds from issued bonds, premiums on bonds issued, notes payable and capital leases are considered income for governmental funds but are reported as liabilities on the Statement of Net Position:

Notes Payable	(94,057)

Repayment of bonds and notes principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position:

Bonds Payable	195,000	
Notes Payable	<u>270,882</u>	465,882

Bond Premiums and Discounts are revenues and expenditures in the government funds, but the amortization reduces long term liabilities and assets by adjusting interest expense.

Adjustment to Interest Expense	5,621
--------------------------------	-------

Repayment of finance lease principal is an expenditure in the governmental funds, but the repayment reduces finance leases payable in the Statement of Net Position.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

1. NATURE OF ORGANIZATION, OPERATIONS, AND REPORTING ENTITY

The Municipality of Kingston (the "Municipality") is located in Northeastern Pennsylvania. The Municipality operates under the Mayor-Council form of government under a Home Rule Charter. Council is comprised of seven elected members, all of which are elected at large. Council is the chief policy making body. The Mayor is elected for a four-year term and is the head of the executive and administrative branch of Municipal government. The Municipality provides public safety (police and fire), health and welfare, sanitation, public works, culture and recreation, community development, and general administrative services to its residents.

A. Reporting Entity:

The Governmental Standards Accounting Board (GASB) established the criteria for determining the activities, organizations and functions of government to be included in the financial statements of the reporting entity. The criteria used in determining whether such organizations would be included in the Municipality's financial reporting entity are financial accountability and the nature and significance of the relationship. In determining financial accountability in a given case, the Municipality reviews the applicability of the following criteria.

The Municipality is financially accountable for:

1. Organizations that make up the legal Municipality entity.
2. Legally separate organizations if Municipality officials appoint a voting majority of the organizations' governing body and the Municipality is able to impose its will on the organization or if there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.
 - a. Impose its Will - If the Municipality can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization.
 - b. Financial Benefit or Burden - Exists if the Municipality (1) is entitled to the organization's resources or (2) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide support to, the organization or (3) is obligated in some manner for the debt of the organization.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

3. Organizations that are fiscally dependent on the Municipality. Fiscal dependency is established if the organization is unable to adopt its budget, levy taxes or set rates or charges, or issue bonded debt without approval by the Municipality.

The Municipality has no includable component units.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation:

The accounting policies of the Municipality of Kingston conform to generally accepted accounting principles for local government units. The Governmental Accounting Standards Board (GASB) is the authoritative standard-setting body for the establishment of governmental accounting and financial reporting principles. The more significant of these accounting principles are as follows:

The Municipality's basic financial statements consist of government-wide financial statements, including a Statement of Net Position and a Statement of Activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the Municipality. The effect of interfund activity, within the governmental activities columns, has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which primarily rely on fees and charges for support. The Municipality does not have any business-type activities. Fiduciary funds are also excluded from the government-wide financial statements.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each governmental program. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the Municipality.

Fund Financial Statements

The Municipality segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for governmental and fiduciary activities. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Fiduciary funds are used to report assets held in a trustee or agency capacity for others.

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balances of current financial resources. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The Municipality has presented the General Fund and the Special Projects fund as major governmental funds.

Fiduciary funds, as noted above, are used to report assets held in a trustee or agency capacity for others. The assets of fiduciary funds cannot be used to support the government's own programs. The Municipality reports two fiduciary fund types - pension trust funds consisting of three separate pension trusts. The pension trust funds are accounted for using the economic resources measurement focus and full accrual basis of accounting, excluding certain liabilities of defined benefit pension plans.

B. Fund Accounting:

The accounts of the Municipality are organized on the basis of funds each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

There are three major fund types presented in this report. A brief description is presented below:

Governmental Fund Types:

Governmental funds are those through which most governmental functions of the Municipality are recorded. The Municipality's expendable, available financial resources are recorded in governmental fund wherein the measurement focus is on changes in financial position, rather than on net income. Following are descriptions of the Municipality's governmental fund types.

General Fund:

The General Fund accounts for all financial transactions except those required to be recorded in another fund. Operating activities recorded in the General Fund include administrative and service departments. The General Fund also includes operating activities relating to sanitation and sewer services.

Special Revenue Funds:

Special Revenue Funds account for the transactions relating to revenue received for a specified purpose (exclusive of capital projects). The revenue recorded in these funds is legally restricted and must be spent in accordance with required guidelines. Commonwealth grant revenue received under the Liquid Fuels program, as well as other restricted intergovernmental grant funds, are recorded as special revenue funds.

Special Projects Fund:

The Special Projects Fund accounts for resources and activity relating to capital projects from grant revenue.

Fiduciary Fund Types:

Fiduciary funds account for assets held by the Municipality in a trustee capacity or as an agency for individuals, private organizations and other governmental units or funds.

Trust Funds:

Trust funds include the police, firemen's and non-uniformed Defined Benefit Pension Trust Funds, which account for financial activity relating to employee pension fund contributions and distributions.

C. Measurement Focus:

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined in Item b below.

In the fund financial statements, the “current financial resources” measurement focus or the “economic resources” measurement focus is used as appropriate:

- a. All governmental funds utilize a “current financial resources” measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. Fiduciary pension trust funds utilize the “economic resources” measurement focus and full accrual basis of accounting, excluding certain liabilities of defined benefit pension plans.

D. Basis of Accounting:

Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available”. Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

The employee defined benefit pension trusts utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

E. Budgets and Budgetary Accounting:

After several public hearings and work sessions, the Council adopts an annual budget in December for the subsequent year beginning January 1. A budget is prepared for the General Fund. With the approval of Council, budgetary transfers may be allowed. The budget is prepared on a cash basis.

F. Encumbrances:

Encumbrances at year-end are reported as reservations of fund balance since they do not constitute expenditures or liabilities but serve as authorization for expenditures in the subsequent year. As of December 31, 2022, the Municipality had no such encumbrances.

G. Concentration of Credit Risk:

The Municipality's revenues are concentrated because the majority of its revenues are derived from taxes and user fees imposed on its residents. Real estate taxes which are levied by the Municipality and not paid are liened by the Luzerne County Tax Claim Bureau. Similarly, the Municipality can have liens applied against the real estate of residents who are delinquent in paying user fees.

H. Cash Equivalents:

For purposes of the statement of cash flows, cash equivalents include time deposits, certificates of deposit, and all highly liquid debt instruments with maturities of three months or less.

I. Accounts Receivable:

The Municipality extends credit to customers in the form of accounts receivable which are unsecured. An allowance for doubtful accounts has not been established since management is of the opinion that all accounts receivable at year end are fully collectible. Actual bad debts incurred for the year ended December 31, 2022 totaled \$-0-.

J. Investments:

Within the fiduciary funds, the investments of the Pension Trust Funds are carried at market value. Other investments are certificates of deposit with maturities of more than three months and are carried at cost.

K. Other Post-Employment Benefits (OPEB):

The financial statements include an accrual for medical benefits payable by the Municipality for certain retired employees over their projected lifetime. The amounts were calculated by an actuary and has been classified as Net Other Post-Employment Benefits (OPEB) Obligation in the accompanying Statement of Net Position.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEAR ENDED DECEMBER 31, 2022

L. Infrastructure Assets:

Assets of the infrastructure (i.e. roads, curbs, sidewalks, sewers) acquired prior to 2004 are not recorded because the assets are immovable and of value only to the Municipality. Capitalization of infrastructure assets acquired prior to implementation of GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, is not required. Infrastructure assets acquired since the implementation of GASB 34 are capitalized.

M. Capital Assets:

The accounting treatment of capital assets depends on whether the assets are used in governmental fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements:

In the government-wide financial statements, fixed assets are accounted for as capital assets. All fixed assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets which are recorded at their estimated fair value at the date of donation. The Municipality capitalizes all assets in excess of \$300. Also, the Municipality elected to report major general infrastructure assets on a prospective basis, as allowed.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets as follows:

	<u>Estimated Useful Life</u>
Buildings	40 - 60 Years
Machinery, Equipment and Vehicles	5 - 10 Years
Furniture and Fixtures	5 - 10 Years
Infrastructure	15 - 30 Years
Land Improvements	10 Years

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets’ estimated useful lives using the straight-line method of depreciation. Upon sale or retirement of capital assets, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

Fund Financial Statements:

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

The Municipality reviews long-lived assets, including property and equipment, for impairment whenever events or changes in business circumstances indicate that the carrying amount of an asset may not be fully recoverable. An impairment loss would be recognized when the estimated future cash flows from the use of the asset are less than the carrying amount of that asset. As of December 31, 2022, there have been no such losses.

N. Compensated Absences:

The financial statements include an accrual for compensated absences, (accumulated sick and vacation pay for all employees). The amounts are computed per the various contracts and according to administrative policy. The total amount due employees as of December 31, 2022 was \$958,686.

O. Long-Term Debt:

The accounting treatment of long-term debt depends on whether the liabilities are obligations of governmental fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental resources are reported as liabilities in the government-wide statements. The long-term debt consists primarily of notes payable, bonds payable, accrued compensated absences and capital lease obligations.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payments of principle and interest are reported as expenditures.

P. Deferred Inflows/Outflows of Resources:

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Municipality currently has multiple types of deferred outflows of resources. Accordingly, the items, deferred pension and OPEB charges and are reported in the Statement of Net Position in connection with the Municipality's Pension and OPEB Plans. These deferred pension/OPEB charges are either (a) recognized in the subsequent period as a reduction of the net pension/OPEB liability (which includes pension/OPEB contributions made after the measurement date) or (b) amortized in a systematic and rational method as pension expense in future periods in accordance with Generally Accepted Accounting Principles (GAAP).

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

In addition to liabilities, the Statement of Net Position and the Governmental Funds Balance Sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The Municipality currently has two types of deferred inflows of resources. On the Statement of Net Position, deferred inflows of resources are related to pensions and OPEB for certain actuarially determined differences between projected and actual investment earnings. In the governmental-funds Balance Sheet, deferred inflows of resources are related to unavailable revenues from real estate taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Q. Equity Classifications:
Government-Wide Statements

Equity is classified as net assets and displayed in three components:

- a. Net Investments in Capital Assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted Net Position - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted Net Assets - All other net assets that do not meet the definition of "Restricted Net Position" or "Net Investment in Capital Assets".

Fund Statements

As prescribed by GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, governmental funds report fund balance in classifications based primarily on the extent to which the Municipality is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. Fund balance for governmental funds can consist of the following:

Nonspendable Fund Balance - Includes amounts that are (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivable.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

Restricted Fund Balance - Includes amounts that are restricted for specific purposes stipulated by external resources providers (creditors, grantors, contributors or laws or regulations of other governments) constitutionally, or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers.

Committed Fund Balance - Includes amounts that can only be used for the specific purposes determined by a formal action of the Municipality's highest level of decision-making authority, the Municipal Council. Commitments may be changed or lifted only by the Municipality taking the same formal action that imposed the constraint originally (for example: Council approval and adoption).

Assigned Fund Balance - Includes amounts intended to be used by the Municipality for specific purposes that are neither restricted nor committed. Intent is expressed by (a) the Municipal Council or (b) a body (a budget, finance committee, or Finance Manager) to which the assigned amounts are to be used for specific purposes. Assigned amounts also include all residual amounts in governmental funds (except negative amounts) that are not classified as nonspendable, restricted, or committed.

Unassigned Fund Balance - This is the residual classification of the General Fund. Only the General Fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification, as the result of overspending for specific purposes for which amounts had been restricted, committed or assigned.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

R. Interfund Eliminations:

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

S. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

T. Use of Restricted /Unrestricted Net Position:

When an expense is incurred for which both restricted and unrestricted resources are available, the Municipality's policy is to apply restricted resources first.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

U. Subsequent Events:

The Municipality has evaluated events subsequent from the balance sheet date of December 31, 2022, through October 13, 2023 which is the date these financial statements were available to be issued. Based on the definitions and requirements of the Subsequent Events Topic of the Governmental Accounting Standards Board, management of the Municipality of Kingston is not aware of any subsequent events that would require recognition or disclosure in the financial statements.

3. DEPOSITS AND INVESTMENTS

The Municipality is required by statute to deposit funds in depositories that are either banks, banking institutions or trust companies located in the Commonwealth of Pennsylvania. To the extent that such deposits exceed Federal Deposit Insurance Corporation (FDIC) limits, the depositories must deposit, with their trust departments or other custodians, obligations of the United States, the Commonwealth of Pennsylvania or any political subdivision of the Commonwealth. Under Pennsylvania Act 72 of 1971, as amended, the depositories may meet this collateralization requirement by pooling their institution securities (such pooled securities are not necessarily held by the financial institutions' trust departments in the name of the depositors). The Municipality's deposits consist of checking accounts and are maintained in such depositories and are, therefore, fully insured or collateralized under Act 72, as described above. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the Municipality. The deposits and investments of the Employee Pension Trust Funds are administered by trustees and are held separately from those of other Municipality funds. Deposits of the Employee Pension Trust Funds are included in the line item captioned as "Cash and Cash Equivalents and Short-Term Investments". Such deposits are insured up to FDIC limits. The investments are captioned as "Investments" in the Statement of Fiduciary Net Position.

The Municipality also maintains an investment account with Merrill Lynch which consists of money market funds. The funds are included as cash and cash equivalents on the Balance Sheets in the fund statements. There were no investment transactions during the year that were in violation of the policy of the Municipality. See Note 7 for additional information related to investments held under the Employee Pension Trust Fund.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

The Municipality's cash and cash equivalents and investments are subject to several types of risk, which are examined in more detail below:

A. Custodial Credit Risk - Deposits:

Custodial credit risk is the risk that in the event of a bank failure, the Municipality's deposits may not be returned to it. The Municipality does not have a deposit policy for custodial credit risk. As of December 31, 2022, \$3,284,087 of the Municipality's bank balance of \$3,601,911 was exposed to custodial credit risk as follows:

Uninsured and Collateral Held by Pledging Bank's Trust Department not in the Municipality's Name in Accordance with Act 72 of 1971	<u>\$ 3,284,087</u>
--	---------------------

B. Fair Value Measurements:

To the extent available, the Municipality's investments are recorded at fair value at December 31, 2022. GASB Statement No. 72, *Fair Value Measurement and Application*, defines fair value as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest, and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

Level 1 – Investments whose values are based on quoted prices (unadjusted for identical assets in active markets that a government can access at the measurement date.

Level 2 – Investments with inputs-other than quoted prices included in Level 1 – that are observable for an asset, either directly or indirectly.

Level 3 – Investments classified as Level 3 have unobservable inputs for an asset and may require a degree of professional judgment.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

4. REAL ESTATE TAXES

The provisions of the Pennsylvania Revenue and Taxation Code govern assessment, collection, and apportionment of real and personal property taxes. Real property taxes are computed by applying approved property tax rates to the assessed value of properties, in the case of locally assessed property, and as determined by the State Board of Equalization. Real estate taxes are levied annually, with the exception of the supplemental real estate taxes, which are levied when supplemental assessment events, such as sales of real estate or new construction, take place. The Municipality bills and collects its own real estate taxes through the Municipality's elected tax collector.

Total tax on real estate in 2022 was 1.55 mills.

The current portion of real estate taxes are collected by the Municipality Tax Collector and submitted to the Municipality. Delinquent real estate taxes are collected by a third-party collector and are remitted to the Municipality. Luzerne County is responsible for establishing assessed values.

The schedule for real estate taxes levied each year is typically as follows:

March 1	Levy date
March 1 - April 30	2.0% discount period
May 1 - August 17	Face payment period
August 18 - December 31	10% penalty period
January 1 (Subsequent Year)	Lien date

Delinquent real estate taxes receivable at December 31, 2022 were \$70,028. The Municipality's allowance for uncollectible accounts against real estate taxes receivable at December 31, 2022 was \$19,207.

Real estate tax revenues are recognized in the fiscal year for which they are levied, provided they are due and collected within the fiscal year and are distributed to the Municipality within 60 days after the fiscal year-end.

The total estimated assessed value of taxable real estate property for 2022 was \$735,415,200.

7. DEFINED BENEFIT PENSION PLANS

The Municipality has three defined benefit pension plans as more fully described subsequently. The plans are subject to Pennsylvania Act 205 as follows:

PENNSYLVANIA ACT 205 OF 1984

Pennsylvania Act 205 of 1984 ("Act 205"), the Municipal Pension Plan Funding Standard and Recovery Act, initiated actuarial funding requirements for municipal pension plans. Under Act 205 provisions, a municipal budget must provide for the full payment of the minimum municipal obligation (MMO) to each employee pension fund of the municipality. Act 189 of 1990 amended Act 205 and redefined the calculation used to determine the MMO to employee pension funds. The MMO is now defined as the total financial requirements to the pension fund, less funding adjustments and estimated member contributions.

Act 205 also requires:

- a. The filing of Biennial Actuarial Valuation Reports;
- b. The funding of pension plans from state aid, members' contributions, and municipal contributions (if necessary);
- c. The actual amount of state aid allocated to a municipality cannot exceed a plan's pension costs;
- d. A prior cost estimate before the adoption of any benefit plan modification; and
- e. The municipality to provide information contained in actuarial valuation reports to plan members of benefit recipients.

The Municipality's pension plans are eligible for state aid.

For the year 2022, the Municipality received \$230,844 of intergovernmental (state aid), which was transferred to the pension trust funds as follows:

Police Pension Plan	\$	76,948
Firemen's Pension Plan		76,948
Non-Uniformed Pension Plan		<u>76,948</u>
 TOTAL INTERGOVERNMENTAL (STATE AID)	 \$	 <u>230,844</u>

Net Pension Expense for all of the Municipality's plans are include in General Government-Administration and Public Safety of the Statement of Activities.

DEFINED BENEFIT PENSION PLAN - POLICE

A. Plan Description

Plan Administration

The Police Pension Plan established by Municipal Ordinance in accordance with Act 600 effective January 1, 1983. The Plan is available to all full-time policemen.

The following is a summary of the plan's coverage and benefit provisions and significant actuarial assumptions:

a. Eligibility

All full-time members of the police force join the Plan upon employment.

b. Normal Retirement

A member hired after January 1, 1996, is eligible for normal retirement after attainment of age 55 and completion of 25 years of service. A member hired before January 1, 1996, is eligible for normal retirement after attainment of age 50 and completion of 20 years of service.

The normal retirement pension is payable monthly during the member's lifetime, with payments continuing after the member's death to the surviving spouse, or eligible child, equal to 100% (50% for members hired after January 1, 2014), of the amount payable to the member at the time of the member's death. If the member is single and hired before January 24, 2001, payments are guaranteed for the first 120 months.

The amount of monthly pension is equal to 50% of average monthly compensation for members hired after January 1, 1996, and 65% of average monthly compensation for members hired before January 1, 1996.

Average monthly compensation is based upon the final 36 months of employment.

c. Late Retirement

If a member continues working after their normal retirement date, their pension does not start until they actually retire. The monthly late retirement pension is equal to the benefit accrued to the late retirement date.

d. Postretirement Cost-of-Living Increase

An annual cost-of-living adjustment of 1.0% of the pension benefit is made to retirees with a maximum total cost-of-living increase of 10% for members retiring on or after January 1, 1990, and 30% for members who retired before January 1, 1990. The maximum pension benefit after the cost-of-living increase is 75% of average monthly compensation.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

Members hired after January 1, 2014, are not eligible to receive any cost-of-living adjustment to the pension benefit.

e. Disability Retirement

For active members with a service related disability, a disability pension is payable equal to 65% of average monthly compensation. For active members hired before January 24, 2001, with a non-service related disability after ten or more years of service, the disability pension is equal to 30% of average monthly compensation. Disability benefits are reduced by 100% of any Workmen's Compensation benefits and Social Security disability benefits received by the member. The minimum service related disability pension is equal to 50% of the member's monthly salary at the time of disability, reduced by any Social Security benefits received by the member for the same injuries.

f. Death Benefits

If a member is eligible for retirement at the time of death, a monthly death benefit is payable to their surviving spouse, or eligible child, equal to 100% (50% for members hired after January 1, 2014), of the monthly benefit the member would have been receiving had he been retired at the time of death.

g. Vesting

A member's benefits vest upon completion of 12 years of service. The vested benefit is a deferred monthly pension beginning at normal retirement equal to the benefit accrued to the date of termination.

h. Accrued Pension

The benefit accrued at any date other than the normal retirement date is equal to the projected normal retirement benefit multiplied by the ratio of the number of years of benefit service to date to the total number of years of benefit service projected at normal retirement.

i. Contributions

Members contribute 6.0% of compensation.

Member contributions are credited with 5.0% annual interest.

B. Plan Membership at December 31, 2022

	December 31, 2022
Inactive Members or Beneficiaries Currently Receiving Benefits	19
Inactive Members Entitled to But Not Yet Receiving Benefits	0
Active Members	<u>21</u>
 Total Members	 <u>40</u>

C. Net Pension Liability

The net pension liability was measured as of December 31, 2022, and the total pension liability was determined by rolling forward the liabilities from an actuarial valuation as of January 1, 2021. No significant events or changes in assumptions occurred between the valuation date and the fiscal year end.

D. Actuarial Assumptions

The total pension liability in the January 1, 2021 actuarial valuation was determined using the following economic assumptions, applied to all periods included in the measurement:

Inflation	3.00%	
Salary Increases	5.00%	(Average, Including Inflation)
Investment Rate of Return	7.75%	(Including Inflation)
Postretirement Cost of Living Increase	1.00%	

Mortality rates were based on the RP2000 Table. This table does not include projected mortality improvements.

The long-term expected rate of return on pension investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	60.00%	5.50% - 7.50%
Fixed Income	35.00%	1.00% - 3.00%
Cash	5.00%	0.00% - 1.00%

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The pension plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The employer has always met the funding requirements of Pennsylvania law Act 205 of 1984. Act 205 requires full funding of the entry age normal cost plus plan expenses, as well as amortization of the unfunded liability.

E. Deposits and Investment Risk Disclosures

Deposits

At December 31, 2022, deposits were insured up to \$500,000, which includes a \$250,000 limit for cash by the Securities Investor Protection Corporation (SIPC).

At December 31, 2022, this Plan had \$429,239 of deposits. The deposits were neither insured nor collateralized for amounts in excess of the federal deposit insurance coverage of \$250,000.

Credit Risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit ratings of the Plan's investments (excluding obligations explicitly guaranteed by the U.S. government) are indicated below:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Credit Rating</u>
Corporate Bonds and Notes	\$ 1,157,334	Average of A
Government Securities	<u>401,465</u>	Average of AA
Total	<u>\$ 1,558,799</u>	

Concentration of Credit Risk is the risk of loss attributed to the magnitude of an investment in a single issuer. At December 31, 2022, the Plan had no investments (other than U.S. Government and U.S. Government guaranteed obligations, mutual funds or other pooled investments) in any one issuer that represent 5% or more of total investments.

Custodial Credit Risk for investments is the risk that the Plan will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party.

The Plan has no investment policy for custodial credit risk. The fair value of plan securities held by a counterparty (and not in the Plan's name) are listed below by security type.

G. Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following represents the net pension liability of the Plan, calculated using the discount rate of 7.75%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percent-point lower or 1-percent-point higher than the current rate:

	1% Decrease	Current	1% Increase
	6.75%	Discount Rate 7.75%	8.75%

H. Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

The annual pension expense recognized can be calculated two different ways. First, it is the change in the amounts reported on for the Employer's Statement of Net Position that relate to the plan and are not attributable to employee contributions. That is, it is the change in net pension liability plus the changes in deferred outflows and deferred inflows plus employer contributions.

Alternatively, annual pension expense can be calculated by its individual components. While GASB does not require or suggest the organization of the individual components shown in the following detail, we believe it helps to understand the level and volatility of pension expense, as outlined below.

For the measurement year ended December 31, 2022, the Municipality recognized net pension expense of \$718,203 as follows:

		Measurement Year Ended <u>December 31, 2022</u>
Change in Net Pension Liability:		
December 31, 2022	\$ 4,549,913	
December 31, 2021	<u>3,120,561</u>	\$ 1,429,352
Change in Deferred Outflows of Resources:		
December 31, 2022	(1,343,852)	
December 31, 2021	<u>(507,167)</u>	(836,685)

Difference Between Projected and Actual Earnings on Investments (2)		344,824
Pension Plan Administrative Expenses		3,400
Net Pension Expense	\$	718,203

(1) Each year's gain or loss is recognized over a closed period, using the average of the expected remaining service lives of all active and inactive employees that are provided pensions through this pension plan.

(2) Each year's gain or loss is recognized over a 5-year period.

DEFINED BENEFIT PENSION PLAN – FIREMEN

A. Plan Description

Plan Administration

The Firemen's Pension Plan established by Municipal Ordinance in accordance with Act 205 effective January 1, 1986. The Plan is available to all full-time firemen.

The following is a summary of the plan's coverage and benefit provisions and significant actuarial assumptions:

a. Eligibility

All full-time firemen of the Municipality of Kingston join the Plan upon employment.

b. Normal Retirement

A member hired on or before January 1, 2014, is eligible for normal retirement after attainment of age 55.

A member hired after January 1, 2014, is eligible for normal retirement after attainment of age 58 and completion of 25 years of service.

The normal retirement pension is payable monthly during the member's lifetime, with payments ceasing upon death.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

The amount of monthly pension is equal to 2% of final average salary multiplied by the number of years of credited service up to a maximum of 25 years of service.

Final average salary is based upon the last three years of employment.

c. Late Retirement

If a member continues working after his normal retirement date, their pension does not start until they actually retire. The monthly late retirement pension is equal to the benefit accrued to the late retirement date.

d. Early Retirement

If a member is discontinued from service involuntarily after completing 8 years of service, or voluntarily after completing 22 years of service, they're eligible for an early retirement benefit. The member may elect to receive his accumulated contributions to date with interest or their accrued normal retirement pension actuarially reduced for each year their retirement precedes his attainment of age 55.

e. Disability Retirement

For active members with a service related disability, a disability pension is payable equal to 80% of final average salary.

For active members with a non-service related disability after ten or more years of service, the monthly disability pension is equal to 50% of final average salary.

The monthly disability pension is reduced by Worker's Compensation benefits received by the member.

f. Postretirement Cost-of-Living Increase

Members who retired after December 31, 2000, are eligible for a cost-of-living increase beginning one year after retirement. The increase is equal to 2% per year for ten consecutive years, with a maximum total cost-of-living increase of 20%. At the end of the tenth year, the pension will reduce to an amount equal to 10% above the initial retirement pension and will remain at that amount.

Members hired after January 1, 2014, are not eligible to receive any cost-of-living adjustment to the pension benefit.

g. Death Benefits

If a member is eligible for retirement, a monthly death benefit is payable in accordance with the election filed by the member.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEAR ENDED DECEMBER 31, 2022

h. Vesting

A member's benefits vest upon completion of eight years of service. The vested benefit is a deferred monthly pension beginning at normal retirement equal to the benefit accrued to the date of termination.

i. Accrued Pension

The benefit accrued at any date other than the normal retirement date is equal to the normal retirement benefit formula, but based upon salary and service to date.

j. Contributions

Members contribute 6.0% of salary.

Member contributions are credited with 4.0% annual interest.

B. Plan Membership at December 31, 2022

	December 31, 2022
Inactive Members or Beneficiaries Currently Receiving Benefits	15
Inactive Members Entitled to But Not Yet Receiving Benefits	1

C. Net Pension Liability

The net pension liability was measured as of December 31, 2022, and the total pension liability was determined by rolling forward the liabilities from an actuarial valuation as of January 1, 2021. No significant events or changes in assumptions occurred between the valuation date and the fiscal year end.

D. Actuarial Assumptions

The total pension liability in the January 1, 2021 actuarial valuation was determined using the following economic assumptions, applied to all periods included in the measurement:

Inflation	3.00%	
Salary Increases	5.00%	(Average, Including Inflation)
Investment Rate of Return	7.75%	(Including Inflation)
Postretirement Cost of Living Increase	2.00%	

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEAR ENDED DECEMBER 31, 2022

Mortality rates were based on the RP2000 Table. This table does not include projected mortality improvements.

The long-term expected rate of return on pension investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	60.00%	5.50% - 7.50%
Fixed Income	35.00%	1.00% - 3.00%
Cash	5.00%	0.00% - 1.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The pension plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The employer has always met the funding requirements of Pennsylvania law Act 205 of 1984. Act 205 requires full funding of the entry age normal cost-plus plan expenses, as well as amortization of the unfunded liability.

E. Deposits and Investment Risk Disclosures

Deposits

At December 31, 2022, deposits were insured up to \$500,000, which includes a \$250,000 limit for cash by the Securities Investor Protection Corporation (SIPC).

At December 31, 2022, this Plan had \$284,016 of deposits. The deposits were neither insured nor collateralized for amounts in excess of the federal deposit insurance coverage of \$250,000.

Credit Risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit ratings of the plans investments (excluding obligations explicitly guaranteed by the U.S. government) are indicated below:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Credit Rating</u>

FOR THE YEAR ENDED DECEMBER 31, 2022

Concentration of Credit Risk is the risk of loss attributed to the magnitude of an investment in a single issuer. At December 31, 2022, the Plan had no investments (other than U.S. Government and U.S. Government guaranteed obligations, mutual funds or other pooled investments) in any one issuer that represent 5% or more of total investments.

Custodial Credit Risk for investments is the risk that the Plan will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The Plan has no investment policy for custodial credit risk. The fair value of plan securities held by a counterparty (and not in the Plan's name) are listed below by security type.

<u>Investment Type</u>	<u>Fair Value</u>
Corporate Bonds and Notes	\$ 1,715,237
Government Securities	<u>671,720</u>
Total	<u>\$ 2,386,957</u>

Interest Rate Risk for investments is the risk that a change in interest rates will adversely affect the fair value of an investment. The maturities of the Plan's debt investments are listed below:

G. Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan, calculated using the discount rate of 7.75%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Current	1% Increase
	6.75%	Discount Rate 7.75%	8.75%
Plan's Net Pension Liability (Asset)	\$ 3,413,074	\$ 2,347,665	\$ 1,436,745

H. Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

The annual pension expense recognized can be calculated two different ways. First, it is the change in the amounts reported on for the Employer's Statement of Net Position that relate to the plan and are not attributable to employee contributions. That is, it is the change in net pension liability plus the changes in deferred outflows and deferred inflows plus employer contributions.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA

Alternatively, annual pension expense can be calculated by its individual components. While GASB does not require or suggest the organization of the individual components shown in the following detail, we believe it helps to understand the level and volatility of pension expense, as outlined below.

For the measurement year ended December 31, 2022, the Municipality recognized net pension expense of \$332,132, as follows:

DEFINED BENEFIT PENSION PLAN - NON-UNIFORMED

A. Plan Description

Plan Administration

The Firemen's Pension Plan established by Municipal Ordinance in accordance with Act 205 effective January 1, 1987. The Plan is available to all full-time non-uniformed employees.

The following is a summary of the plan's coverage and benefit provisions and significant actuarial assumptions:

a. Eligibility

All full-time non-uniformed employees of the Municipality of Kingston, except for the Solicitor, join the Plan upon employment.

b. Normal Retirement

A member hired before November 18, 2013, is eligible for normal retirement after attainment of age 55. A member hired on or after November 18, 2013, is eligible for normal retirement after attainment of age 62. The Municipal Administrator is eligible for normal retirement after attainment of age 60.

The normal retirement pension is payable monthly during the member's lifetime, with payments ceasing upon death.

The amount of monthly pension is equal to 2.0% of final average salary multiplied by the number of years of credited service up to a maximum of 25 years of service.

Final average salary is based upon the last three years of employment.

c. Late Retirement

If a member continues working after their normal retirement date, their pension does not start until they actually retire. The monthly late retirement pension is equal to the benefit accrued to the late retirement date.

d. Early Retirement

If a member is discontinued from service involuntarily after completing 8 years of service, or voluntarily after completing 22 years of service, they're eligible for an early retirement benefit. The member may elect to receive his accumulated contributions to date with interest or their accrued normal retirement pension actuarially reduced for each year their retirement precedes his attainment of age 55.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEAR ENDED DECEMBER 31, 2022

e. Disability Retirement

For active members with a service related disability, a disability pension is payable equal to 80% of final average salary.

For active members with a non-service related disability after ten or more years of service, the monthly disability pension is equal to 50% of final average salary.

The monthly disability pension is reduced by Worker's Compensation benefits received by the member.

f. Death Benefits

If a member is eligible for retirement, a monthly death benefit is payable in accordance with the election filed by the member.

g. Vesting

A member's benefits vest upon completion of eight years of service. The vested benefit is a deferred monthly pension beginning at normal retirement equal to the benefit accrued to the date of termination.

h. Accrued Pension

The benefit accrued at any date other than the normal retirement date is equal to the normal retirement benefit formula, but based upon salary and service to date.

i. Contributions

Members contribute 6.0% of compensation.

Member contributions are credited with 4.0% annual interest.

B. Plan Membership at December 31, 2022

	December 31, 2022
Inactive Members or Beneficiaries Currently Receiving Benefits	28

C. Net Pension Liability

The net pension liability was measured as of December 31, 2022, and the total pension liability was determined by rolling forward the liabilities from an actuarial valuation as of January 1, 2021. No significant events or changes in assumptions occurred between the valuation date and the fiscal year end.

D. Actuarial Assumptions

The total pension liability in the January 1, 2021 actuarial valuation was determined using the following economic assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Salary Increases	5.00% (Average, Including Inflation)
Investment Rate of Return	7.75% (Including Inflation)
Postretirement Cost of Living Increase	0.00%

Mortality rates were based on the RP2000 Table. This table does not include projected mortality improvements.

The long-term expected rate of return on pension investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	60.00%	5.50% - 7.50%
Fixed Income	35.00%	1.00% - 3.00%
Cash	5.00%	0.00% - 1.00%

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEAR ENDED DECEMBER 31, 2022

Discount Rate

The discount rate used to measure the total pension liability was 7.75%. The pension plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The employer has always met the funding requirements of Pennsylvania law Act 205 of 1984. Act 205 requires full funding of the entry age normal cost plus plan expenses, as well as amortization of the unfunded liability.

E. Deposits and Investment Risk Disclosures

Deposits

At December 31, 2022, deposits were insured up to \$500,000 by the Securities Investor Protection Corporation (SIPC).

Credit Risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit ratings of the plans investments (excluding obligations explicitly guaranteed by the U.S. government) are indicated below:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Credit Rating</u>
Corporate Bonds and Notes	\$ 825,018	Average of A
Government Securities	322,571	Average of AA
Total	<u>\$ 1,147,589</u>	

Concentration of Credit Risk is the risk of loss attributed to the magnitude of an investment in a single issuer. At December 31, 2022, the Plan had no investments (other than U.S. Government and U.S. Government guaranteed obligations, mutual funds or other pooled investments) in any one issuer that represent 5% or more of total investments.

Custodial Credit Risk for investments is the risk that the Plan will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The Plan has no investment policy for custodial credit risk. The fair value of plan securities held by a counterparty (and not in the Plan's name) are listed below by security type.

8. Percent Married at Retirement

75% of Firemen and Police employees and 25% of Non-Uniformed Employees are assumed to be married and have a spouse covered by the plan at retirement.

9. Spouse Age

Active - Wives are assumed to be three years younger than their husbands.

Retired - Actual age.

10. Per Capita Claims Cost

The per capita claims cost for medical and prescription drug is based on the expected portion of the group's overall cost attributed to individuals in the specified age and gender brackets. The resulting costs are as follows:

<u>Age</u>	<u>Medical and Prescription Drug Combined</u>	
	<u>Males</u>	<u>Females</u>
45-49	\$ 7,795	\$ 11,258
50-54	\$ 10,323	\$ 12,723

60-64	\$ 16,408	\$ 15,294
65+(1)	\$ 1,416	\$ 1,416

(1) Post 65 claims are assumed to be equal to the premium of the Medicare Advantage plan.

11. Retiree Contributions

Retiree contributions are assumed to increase at the same rate as the Health Care Cost Trend rate.

12. Health Care Cost Trend Rate

6.5% in 2022, 6.0% in 2023 and 5.5% in 2024 and 2025. Rates gradually decrease from 5.4% in 2026 to 3.9% in 2075 and later based on the Society of Actuaries Long-Run Medical Cost Trend Model.

13. Life Insurance

It is assumed that the annual cost to provide life insurance varies by age. The assumed cost is equal to the amount of coverage times the applicable mortality factor contained in the valuation mortality table.

14. Actuarial Value of Assets

Equal to the Market Value of Assets.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS

15. Actuarial Cost Method - Entry Age Normal

Under the Entry Age Normal Cost Method, the Normal Cost is the present value of benefits allocated to the year following the valuation date. Benefits are allocated on a level basis over the earnings of an individual between the date of hire and the assumed retirement age. The Accrued Liability as of the valuation date is the excess of the present value of future benefits over the present value of future Normal Cost. The Unfunded Accrued Liability is the excess of the Accrued Liability over the Actuarial Value of the Assets. Actuarial gains and losses serve to reduce or increase the Unfunded Accrued Liability.

10. LONG-TERM DEBT

On September 30, 2020, the Municipality issued General Obligation Bonds, Series 2020, in the aggregate principal amount of \$4,860,000. The proceeds were used to refund the Municipality's outstanding General Obligation Bonds, Series 2015, and fund various capital projects of the Municipality. The bonds were issued at a premium of \$112,413 which is amortized over the length of the bonds. The net carrying value of the bonds were calculated as follows:

General Obligation Revenue Bonds Series of 2020	\$ 4,860,000
Plus:	
Net Original Issue Premium	<u>112,413</u>
Net Carrying Amount - General Obligation Revenue Bonds Series of 2020	<u>\$ 4,972,413</u>

The bonds are payable over 20 years with varying payments and interest rates. Interest is charged at 3.0% through 2022, 4.0% through 2025 and 2.0% thereafter. Bonds maturing before June 15, 2026, are subject to redemption, prior to maturity, at the option of the Municipality, in whole or in part, in any order of maturities, at anytime on or after December 15, 2025, at a price equal to 100% of the principle amount of the bonds to be redeemed and accrued interest thereon to the date fixed for such optional redemption.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA

11. FUND BALANCE RESERVES AND DESIGNATIONS

Governmental Funds

General Fund:

The nonspendable fund balance reserve of \$5,000 on the General Fund is to fully reserve the inventory of materials and supplies.

Special Revenue Funds:

The restricted fund balance is for projects and other expenditures specific to the purpose of the respective fund.

12. FIDUCIARY FUNDS

The net position balance of the Employee Pension Trusts is reserved to pay pension plan retirement benefits to Municipal employees.

13. CONTINGENCIES

The Municipality, as a participant in the West Side Landfill, could potentially be liable for various costs relating to that landfill which has closed. At the present time it is not possible to determine the amount, if any, of cost reimbursements that would be required of the Municipality.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
 NOTES TO FINANCIAL STATEMENTS
 FOR THE YEAR ENDED DECEMBER 31, 2022

The Municipality participates, at times, in both state and federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The Municipality is potentially liable for any expenditure which may be disallowed pursuant to the terms of these grant programs.

The Municipality has entered into employment agreements with the unions representing certain non-management groups of its employee workforce and, as such, such labor groups are considered concentrated as of the date of the financial statements. The agreements provide for certain compensation, benefits, and other working conditions, all as more fully detailed in those agreements. It should be noted that these benefits include certain post-employment benefits for retirees as previously noted. Complete details concerning the nature and duration of the contracts can be obtained from Municipality management.

14. RISK MANAGEMENT

a. Property and Liability:

The Municipality is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The list below is a general description of insurance coverage; all policy terms, conditions, restrictions, exclusions, etc. are not included.

Municipality pays all elected officials' bonds by statute.

Settled claims have not exceeded this commercial coverage in any of the past three years.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

b. Workers' Compensation:

The Municipality purchases workers compensation insurance from carriers for employees as follows:

All employees except volunteer fire employees - an annual policy is purchased from the Housing and Redevelopment Insurance Exchange, a reciprocal insurance company with the following coverage:

- \$100,000 per accident
- \$100,000 per disease
- \$500,000 disease aggregate

Volunteer fire employees - an annual policy is purchased from the State Workers Insurance Fund, a Pennsylvania state government owned insurance company, for the Independent fire company and the Columbian Volunteer Fire Department volunteers with the same coverage as those noted above for all other employees.

15. FEDERAL FUNDING

The Coronavirus State and Local Fiscal Recovery Funds ("CSLFRF") provided direct payments to states and governments to respond to the public health emergency and negative economic impact due to COVID-19. In addition, the CSLFRF provided government services, to the extent COVID-19 caused a reduction in revenues, payments through the American Rescue Plan Act of 2021 ("ARPA"). In September 2022, the Municipality of Kingston received \$674,751 and elected the standard allowance for revenue loss which allows them to use the entirety of their allotted money for the provision of government services which must be spent by December 31, 2024. The ineligible uses of the ARPA funds are as follows: deposits into pension funds, debt service or replenishing financial reserves, satisfaction of settlements and/or judgements and programs, services or capital expenditures that include a term or condition that undermines efforts to stop the spread of COVID-19.

16. COVID-19 RELATED EFFECTS

In December 2019, a novel strain of coronavirus was reported in Wuhan, China. The World Health Organization has declared the outbreak to constitute a "Public Health Emergency of International Concern." The COVID-19 outbreak has disrupted supply chains and affected production across a range of industries. As a result of the Pandemic, certain funds experienced significant declines in revenues including the Special Projects, Recreation and Community Advancement funds, needing significant dependency payments from the General Fund. These effects were significantly reduced in 2022.

FOR THE YEAR ENDED DECEMBER 31, 2022

17. EFFECTS OF NEW PRONOUNCEMENTS

The following summarizes recent GASB pronouncements and their impact, if any, on the financial statements:

GASB 94 Public-Private and Public-Public Partnerships and Availability Payment Arrangements

Effective for financial statements for periods beginning after June 15, 2022.

The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). As used in this Statement, a PPP is an arrangement in which a government (the transferor) contracts with an operator (a governmental or nongovernmental entity) to provide public services by conveying control of the right to operate or use a nonfinancial asset, such as infrastructure or other capital asset (the underlying PPP asset), for a period of time in an exchange or exchange-like transaction. Some PPPs meet the definition of a service concession arrangement (SCA), which the Board defines in this Statement as a PPP in which (1) the operator collects and is compensated by fees from third parties; (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement.

This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). As defined in this Statement, an APA is an arrangement in which a government compensates an operator for services that may include designing, constructing, financing, maintaining, or operating an underlying nonfinancial asset for a period of time in an exchange or exchange-like transaction.

The Municipality has not evaluated the effect this statement will have on its financial statements.

GASB 96 Subscription-Based Information Technology Arrangements

Effective for financial statements for periods beginning after June 15, 2022.

This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, Leases, as amended.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

This Statement provides an exception for short-term SBITAs. Short-term SBITAs have a maximum possible term under the SBITA contract of 12 months (or less), including any options to extend, regardless of their probability of being exercised. Subscription payments for short-term SBITAs should be recognized as outflows of resources.

This Statement requires a government to disclose descriptive information about its SBITAs other than short-term SBITAs, such as the amount of the subscription asset, accumulated amortization, other payments not included in the measurement of a subscription liability, principal and interest requirements for the subscription liability, and other essential information.

The Municipality has not evaluated the effect this statement will have on its financial statements.

GASB Statement No. 99, *Omnibus 2022*

Effective Date: The requirements of this Statement are effective as follows:

- The requirements related to extension of the use of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement 34, as amended, and terminology updates related to Statement 53 and Statement 63 are effective upon issuance.
- The requirements related to leases, PPPs, and SBITAs are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter.

MUNICIPALITY OF KINGSTON, PENNSYLVANIA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2022

GASB Statement No. 100, *Accounting Changes and Error Corrections*—an amendment of GASB Statement No. 62

Effective Date: For fiscal years beginning after June 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.

The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability.

The Municipality has not evaluated the effect this statement will have on its financial statements.

GASB Statement No. 101, *Compensated Absences*

Effective Date: The requirements of this Statement are effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.

The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures.

The Municipality has not evaluated the effect this statement will have on its financial statements.

1. BUDGETARY REPORTING BASIS AND CHANGE IN PRESENTATION

Fund financial statements in this report are presented on the modified accrual basis, except for the Statement of Revenues, Expenditures and Changes in Fund Balance - Budget to Actual which is presented on the budgetary reporting basis. The budgetary reporting basis differs from the modified accrual basis in that the budget is prepared on the cash basis of accounting which recognizes revenues when received rather than when earned and expenditures when paid rather than when incurred and records installment note payments and payments on finance lease obligations as expenditures rather than debt service.

The following schedule reconciles the differences between the legally enacted basis and the GAAP basis:

	<u>General Fund</u>
Excess of Revenues and Other Financing Sources Over Expenditures and Other Financing Uses (Budgetary Basis)	\$ 268,113
Adjustments:	
To Adjust for Private Purpose Trusts (GASB 84)	(18,184)
To Adjust for Bond Capital Account	(130,980)
To Adjust Revenues for Accruals and Reclassifications	(954,743)
To Adjust Expenditures for Accruals and Reclassifications	569,965
Excess of Revenues and Other Financing Sources Over Expenditures and Other Financing Uses (Modified Accrual Basis)	\$ (265,829)
Fund Balance (Budgetary Basis)	\$ 1,701,221
To Adjust for Private Purpose Trusts (GASB 84)	238,107
To Adjust for Bond Capital Account	446,347
To Adjust for Receivables	15,132
To Adjust for Payables and Deferred Revenues	(239,604)
Fund Balance (Modified Accrual Basis)	\$ 2,161,203

A budget was not adopted for the Special Revenue - Special Projects Fund because it was not legally required.

Notes to Schedule

Valuation Date: Actuarially determined contribution rates are calculated as of January 1, two to four years prior to the end of the fiscal year in which the contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial Valuation Date: 1/1/2019

Actuarial Cost Method: Entry Age Normal

Amortization Method: Level Dollar Closed

Remaining Amortization Period: 17 Years

Asset Valuation Method: The actuarial value of assets from prior valuation report (reduced for benefits paid and increased for contributions) is projected forward at an artificial investment return of 6.75% (interest rate assumption minus 1%) with a corridor of 80% to 120% of market value.

Inflation: 3.00%

Salary Increases: 5.00% (Average, Including Inflation)

Investment Rate of Return: 7.75% (Including Inflation)

Retirement Age: Pre 1/1/1996 Employees: Attainment of age 57 and completion of 20 years of service. Post 1/1/1996 Employees: Attainment of age 57 and completion of 25 years of service.

Mortality: RP2000 Table. This table does not include projected mortality improvements.

Postretirement Cost-of-Living Increase: 1.00%

Change in benefit terms: None since 1/1/2019.

Notes to Schedule

Valuation Date: Actuarially determined contribution rates are calculated as of January 1, two to four years prior to the end of the fiscal year in which the contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial Valuation Date: 1/1/2019

Actuarial Cost Method: Entry Age Normal

Amortization Method: Level Dollar Closed

Remaining Amortization Period: 13 Years

Asset Valuation Method: The actuarial value of assets from prior valuation report (reduced for benefits paid and increased for contributions) is projected forward at an artificial investment return of 6.75% (interest rate assumption minus 1%) with a corridor of 80% to 120% of market value.

Inflation: 3.00%

Salary Increases: 5.00% (Average, Including Inflation)

Investment Rate of Return: 7.75% (Including Inflation)

Retirement Age: Hired before 11/18/2013: Attainment of age 57, except the Municipal Administrator, who is assumed to retire after attainment of age 60. Hired on or after 11/18/13: Attainment of age 62.

Mortality: RP2000 Table. This table does not include projected mortality improvements.

Change in benefit terms: None since 1/1/2019.
